Web Data Entry

The diagram illustrates the workflow for web data entry on the QuickAuction 2.0 website. It features three browser windows:

- Auction Launch - Microsoft Internet Explorer:** Shows the main navigation menu with links for [Maintain Donors](#), [Maintain Donated Items](#), and [Maintain People](#).
- Person List - Microsoft Internet Explorer:** Displays a list of donors under the heading "People:". The list includes columns for ID, Name, Mobile Phone, Work Phone, and Email. A "Done" button is visible at the bottom.
- Donation Information - Microsoft Internet Explorer:** Shows a form for entering donation details. The "Donated Items:" section contains a table of existing items.

Arrows indicate the data flow:

- People:** An arrow points from the "Maintain People" link in the Auction Launch window to the "People:" list in the Person List window.
- Items:** An arrow points from the "Maintain Donated Items" link in the Auction Launch window to the "Donated Items:" table in the Donation Information window.
- Details:** An arrow points from the "Maintain Donors" link in the Auction Launch window to the "Donation Information:" form in the Donation Information window.

4 Wireless Credit Card Processing

Benefits of *QuickAuction 2.0*

- Eradicated bid sheet errors and faster loading / printing
- Increased donations through easy “sticker” bidding (more \$\$\$!)
- Accuracy of consolidated receipts through bar code scanning
- Faster check-out times and happier attendees
- Fewer post-event call backs for payment because of wait times
- Immediate end-of-event reports and totals
